## My Goal

- I have 1 year and a half of experience as Frontend React Freelance Developer, currently, I will be part of a team of volunteers for E-Commerce creations, I have skills in CRUD, React Hooks, Rest API, Redux, GraphQL, Responsible Web Sites and UI (Figma). I participate in the course Ignite and complete RocketSeat's Discover course.
- I have the resources to work with.

## Education

### ESTÁCIO DE SÁ UNIVERSITY

- Higher education in progress (2023 – present)
- Attending the first semestre in Systems Analysis and Development

## Skills

- Intermediate English – 1 year
- Experience in HTML, CSS (SASS, Styled-Components and Tailwindcss), JavaScript and GIT.
- Experience in framework JavaScript Express, ReactJs, React Native, TypeScript, Angular
- Experience basic in NodeJs e MongoDB , MySQL e PHP.

## Experience

### SALESMAN AND COMPUTER TECHNICIAN | TÁNAMÃO STORE | 2021-2023

- Program planning and management; User support; Configuration of printers, switches, computers, notebooks and servers; Analysis and installation of software and hardware; Maintenance of logical network; Management of website, fanpage and marketplace.

### FRONTEND DEVELOPER REACT | TANAMAO STORE | 2023-PRESENT

- I'm currently developing the entire E-Commerce Frontend for the Store, I'm responsible for all part UI/UX, customer login, payments API consumption. In addition to acting in backend developed in GraphQL and Node JS.
- Technologies: NextJS, TypeScript, Styled Components, Redux, Microservices, NodeJS and GIT.

### PARTICIPATION IN THE DISCOVER + IGNITE COURSE | ROCKETSEAT | 2022

- Rocketseat is an online learning platform that offers several courses focused on web and mobile development. The "Ignite and Discover" course is a learning track focused on software development, with updated and practical content, geared to the needs of the market.
- Contents: HTML + CSS, JavaScript and typeScript, React Native, ReactJS e NodeJS.
